Submitted Script File : Sean Mooney_783353_assignsubmission_file_40283592

Criterion	Comments	Mark
Script documentation in the form of embedded #comments	Fairly good commenting.	10/15
Exception handling of incorrect/missing user input arguments	No message if no arguments provided.	14/20
Creation of the target directory and copying files according to the file name.	Silent cmp -s used to compare file content	28/35
Renaming non-identical files having the same original file name; ensuring identical files are not copied.		
Creation of the duplicates.txt file containing absolute path references.	File contains the same list twice. Paths are not absolute.	6/20
General robustness of the script operation.	Reliable coding with few issues.	8/10
		66/100
